SCHEDULE 14 VOLUNTARY INTERRUPTIBLE SERVICE

The Cooperative is the sole judge of the need for interruption of load. The Cooperative is the sole judge of the amount of interruptible demand provided by the Customer, based on the following calculation:

The average of the integrated fifteen-minute demand for the two hours prior to the hour immediately preceding the call for interruption will be used as the basis for establishing the existing demand level. The hourly interruptible demands for each customer will be the difference between the existing demand level and the actual demand measured during each hour of the interruption period. The interrupted energy of each interruption period shall be the sum of the hourly interrupted demands. These type of interruptions will cover a period of no more than six hours.

For interruptions longer than six hours in duration, the Customer's average load usage for the same hours as the interruption hours in the two preceding business days prior to the day of notice will be used as the basis for determining the demand level for interruption. The average hourly usage for these business days, based on the average integrated fifteen minute demand intervals, minus the actual load during the interruption period will equal the amount of interruptible load. The interrupted energy of each interruption period shall be the sum of the hourly interrupted demands.

G. Terms of Interruption

For each interruption request, the Cooperative shall identify the Customer to be interrupted. The Cooperative shall inform the Customer of an interruption request in accordance with the agreed upon method of notification. The Terms of Interruption shall include the following:

1) The time at which each interruption shall begin ~~EFFECTIVE~~ be established by the Cooperative. At least one (1) hour of advance notice of each request for interruption shall be provided by the Cooperative.

2) The duration in clock hours of the interruptions ~~SECTION 9TH~~ is to be established by the Cooperative.

12. BILLING

The Cooperative's billing period is on a monthly basis and shall be flexible so as to allow various billing cycles based upon the date of the monthly meter reading. Each month, the Cooperative shall render an electric service statement to each member for approximately thirty days of service. The member shall pay the net amount of bill within twelve days of the date bill was rendered. If payment is not received by the Cooperative within fifteen days of the date bill was rendered, the gross amount (as defined in the Rate Schedule) shall be due. The late payment penalty shall only be assessed one time for any bill rendered for services.

Failure to receive the bill will not release the member from payment obligation; also see # 20, Refusal or Termination of Service and # 31, Collection of Delinquent Accounts.

### 13. DEPOSITS

The Cooperative may require a minimum cash deposit or other guaranty to secure payment of bills except for members qualifying for service reconnection pursuant to 807 KAR 5:006, Section 15, Winter Hardship Reconnection. Service may be refused or discontinued for failure to pay the requested deposit. Interest will accrue on the paid deposit at a rate of six percent (6%), compounded annually and will be refunded when the deposit is returned.

The deposit may be waived upon a member's showing of a satisfactory credit or payment history. Deposits on residential accounts will be returned after three (3) years if the customer has established a satisfactory payment record for that period. Deposits on non-residential accounts will be returned after five (5) years if the member has established a satisfactory payment record for that period. If a deposit has been waived or returned and the member fails to maintain a satisfactory payment record, a deposit may then be required. The Cooperative may require a deposit in addition to the initial deposit if the member's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit and any interest earned and owing will be credited to the final bill with any remainder refunded to the member. An appropriate amount of the deposit may be retained and transferred to another existing account of the same member if the credit history is not satisfactory.

In determining whether a deposit will be required or waived the following criteria will be considered:

- A. Previous payment history with the Cooperative. If the member has no previous history with the Cooperative, residential members may have their immediate past provider of electric service complete the Cooperative's Letter of Referral for approval. Letters must indicate a satisfactory payment history for a minimum of twelve (12) consecutive months with the previous provider.

SECTION 9 (1)

A. (Continued)

BY: Jordan C. Neel

Non-residential members may complete a credit application with the Cooperative listing several sources/lines of established credit and banking history. Sources/lines of credit must have been established for a satisfactory period of time and must be of comparable quality and amount to waive a deposit.

- B. Whether the member has an established income.
- C. Length of time the member has resided or been located in the area.
- D. Whether the member owns property in the area.
- E. Whether the member has filed bankruptcy proceedings within the last seven years.
- F. Whether another member with a good payment history is willing to sign as a guarantor for payment of the account.
- G. Whether the member has a satisfactory credit record and rating as reported by credit bureaus/agencies.
- H. Whether the member has been suspected of previous diversion or tampering of service.

If the deposit is held longer than eighteen (18) months, the deposit will be recalculated at the member's request, based on the member's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential member or 10 percent for a non-residential member, the Cooperative may collect any underpayment and shall refund any overpayment by check or credit to the member's bill. No refund will be made if the member's bill is delinquent at the time of the recalculation.

CALCULATED DEPOSITS

All member deposits shall be based upon actual usage of the member at the same or similar premises for the most recent twelve (12)-month period, if such information is available. If information is not available, the deposit will be based on the average bills of similar members and premises in the system. The deposit amount shall not exceed 2/12ths of the member's actual or estimated annual bill.

14. BUDGET PAYMENT PLANS

SECTION 9(1)

BY: Jordan C. Neel

The Cooperative offers two budget payment plans for its residential members who desire to pay an even monthly amount in lieu of monthly billings for actual usage - Levelized Billing and Even-Budget Billing. The monthly budget amount will be determined by the Cooperative and will be a minimum of 1/12 of the estimated annual usage. The monthly budget amount will be subject to review and adjustment during the budget year.

The budget year for both budget plans will commence during the month following the member's request for budget billing. Requests for the budget plans will be accepted during all months of the year. The settlement month for Even-Budget Billing will be during the twelfth month of billing. There is no specific settlement month for Levelized billing as the account is adjusted monthly.

Under either plan, if the member fails to pay their bill as rendered under the budget plan, the Cooperative reserves the right to revoke the plan, restore the member to regular billing and require immediate payment of any deficiency.

Failure to receive a bill in no way exempts the member from the provisions of these terms and conditions.

The member's bill will be due within twelve days from the date of the bill and the due date will be clearly indicated on the statement.

EVEN BUDGET BILLING

The member's estimated annual usage is divided by eleven (11) and this amount is used as the initial even amount billed each month. Using 1/11th as the budget amount instead of 1/12th allows for small increases in usage to occur without adjusting the budget amount. The budget amount may be adjusted up or down during the budget year if usage indicates that the account will not be current upon payment of the last budget amount. The last bill of the budget year will bring the member's account to a current status.

After establishing twelve months of actual history at a service location, Even-Budget billing members will be encouraged to transfer to levelized Budget Billing.

### 14. BUDGET PAYMENT PLANS (Continued)

#### LEVELIZED BUDGET BILLING

The member's last eleven month's actual usage plus the current month's usage are totaled and divided by twelve. To this amount is added 1/12th of any account arrearage to date and any current month taxes owed (1/12th of account overages is deducted). The resulting amount is rounded to the nearest whole dollar. This is the amount billed as the current month's levelized budget amount.

The amount is recomputed monthly and will fluctuate based upon the member's changing usage. The account will self-adjust to a near-current status during the budget year, providing there are no abnormal deviations in the member's usage. No other adjustments are made to the member's account as long as the member meets the payment terms of the budget plan. Upon canceling the levelized budget billing, either by the member or the Cooperative, the total account balance outstanding is then due.

32. CHECKS RETURNED - UNHONORED BY BANK

When a check received in payment of a member's account is returned unpaid by the bank for any reason, the Cooperative will notify such member by form letter, notice of returned check, stating the amount of the check and reason for its return. Returned checks will then be considered the same as a delinquent account and if payment in full is not received for the check within ten (10) business days after notice, service to the member will be discontinued twenty-seven (27) days after mailing date of the original bill for which such returned check was intended to pay, as prescribed under the sections of these rules dealing with unpaid accounts. An \$8.00 service charge will be added to all returned unhonored checks.

The Cooperative shall have the right to refuse to accept checks in payment of an account from any member that has demonstrated poor credit risk by having two or more checks returned unpaid from a bank for any reason.

The Cooperative shall not accept a check to pay for and redeem another check or accept a two-party check for cash or payment of an account.

Where a member has been mailed a notice of termination for non-payment and subsequently presents an insufficient check as payment, the original termination date will remain unchanged. The presentation of an insufficient-funds check does not constitute payment of the account. The Cooperative will attempt to contact the member by telephone or mail to request payment, but no further time for payment will be extended beyond that stated on the original termination notice.

### 33. MONITORING OF MEMBER USAGE

On a monthly basis, kWh usage for all accounts will be monitored by the Cooperative according to the following procedure:

1. The member's current monthly kWh usage will be compared to previous periods. Accounts which meet the following exception criteria will be listed for evaluation:
  - \* The bill amount is greater than twice the previous month
  - \* kWh usage is less than one-third of last month's
  - \* kWh usage is fifty percent more or less than the same month last year
  - \* The bill amount is less than the minimum for the rate schedule
  - \* Demand usage is twenty-five percent more or less than last month's
  - \* Demand usage is fifty percent more or less than the same month last year
2. If the deviation in usage for any account listed on the exception report is attributed to unique circumstances such as unusual weather conditions, which would affect all members, no further review will be done.
3. If the deviation cannot be readily attributed to a common cause, the Cooperative will further investigate the account usage by comparing the last twelve month's usage to the same months of the previous year.
4. If the cause for the usage deviation cannot be determined from analysis of the member's meter reading and billing records, the Cooperative may dispatch service personnel to verify the meter reading, check the service installation, or to make personal contact with the member to inquire about the unexplained usage deviation. The Cooperative will contact the member by telephone or in writing about the usage deviation if the service personnel cannot determine a cause.

### ESTABLISHING POLE USE

- A. Before the CATV operator shall make use of any of the poles of the Cooperative under this tariff, they shall notify the Cooperative of their intent in writing and shall comply with the procedures established by the Cooperative. The CATV operator shall furnish the Cooperative detailed construction plans and drawings for each pole line, together with necessary maps, indicating specifically the poles of the Cooperative, the number and character of the attachments to be placed on such poles and rearrangements of the Cooperative's fixtures and equipment necessary for the attachment, any relocation or replacements of existing poles and any additional poles that CATV intends to install.

The obligation of the CATV operator hereunder shall not be limited to amounts shown on estimates made by the Cooperative hereunder. An itemized statement of the actual cost of all such changes shall be submitted by the Cooperative to the CATV operator in a form mutually agreed upon.

Average Cost Differential for Underground Electric Distribution

1. Underground primary cost differential per trench foot. \$5.20
2. Underground service cost differential from an overhead or underground source, member opens trench, installs conduit from source to meterbase and backfills trench. \$0.00

Methodology for Computing Underground Cost Differentials:

1. Underground Primary Cost Differential

Underground primary line extension samples for 1998:

Total Cost	\$652,868.37
<u>Total Footage</u>	<u>62,018</u>
Cost per foot	\$10.53

Overhead primary line extension samples for 1998:

Total Cost	\$124,654.72
<u>Total Footage</u>	<u>23,433</u>
Cost per foot	\$ 5.32

Cost Differential:  $\$10.53 - \$5.32 = \$ 5.21$  per trench foot

\*\*Use \$5.20 per trench foot.

2. Underground service cost differential:

Underground service samples for 1998:

Total Cost	\$83,569.96
<u>Total Footage</u>	<u>15,618</u>
Cost per foot	\$ 5.35

Overhead service samples for 1998:

Total Cost	\$31,388.44
<u>Total Footage</u>	<u>5,976</u>
Cost per foot	\$ 5.25

Cost Differential:  $\$5.35 - \$5.25 = \$ 0.10$  per trench foot

Each party shall be responsible for obtaining its own easements and rights-of-way.

FOR THE PUBLIC SERVICE COMMISSION

- B. Whenever it is necessary to replace or relocate an attachment, the Cooperative shall, before making such replacement or relocation, give forty-eight (48) hours notice (except in cases of emergency) to the CATV operator, specifying in said notice the time of such proposed replacement or relocation, and the CATV operator shall, at the time so specified, transfer its attachments to the new or relocated pole. Should the CATV operator fail to transfer its attachments to the new or relocated pole at the time specified for such transfer of attachments, the Cooperative may elect to do such work and the CATV operator shall pay the Cooperative the cost thereof.
- C. Any existing attachment of CATV which does not conform to the specifications as set out in this tariff hereof shall be brought into conformity therewith as soon as practical. The Cooperative, because of the importance of its service, reserves the right to inspect each new installation of the CATV operator on its poles and in the vicinity of its lines or appurtenances. Such inspection, made or not, shall not operate to relieve the CATV operator of any responsibility, obligation or liability assumed under the tariff.
- D. The Cooperative reserves to itself, its successor and assigns, the right to maintain its poles and to operate its facilities thereon in such manner as will, in its own judgement, best enable it to fulfill its own service requirements. The Cooperative shall not be liable to the CATV operator for any interruption of service of CATV operator or for interference with the operation of the cables, wires and appliances of the CATV operator arising in any manner out of the use of the Cooperative's poles hereunder.

The Cooperative shall exercise reasonable care to avoid damaging the facilities of the CATV operator, make an immediate report to the CATV operator of the occurrence of any such damage caused by its employees, agents or contractors, and, except for removal for non-payment or for failure to post or maintain the required "Performance Bond", agrees to reimburse the CATV operator for all reasonable cost incurred by the CATV operator for the physical repair of facilities damaged by the negligence of the Cooperative.

### EMERGENCY ENERGY CURTAILMENT PROGRAM Ref: PSC Administrative Case No. 353

- (N) **PURPOSE:** To provide a plan for reducing the consumption of electric energy on Owen Electric Cooperative, Inc.'s (OEC's) System in the event of an anticipated or unanticipated capacity shortage from OEC's wholesale power supplier, East Kentucky Power Cooperative (EKP).

Priority levels have been established to handle both anticipated and unanticipated capacity shortages. The following levels are ranked from critical to non-essential need and each level will be affected in varying degrees, depending upon the type of emergency, the shortage level, the duration, and the extent of the emergency:

Level I Essential Health and Service Loads  
Level II Residential Loads  
Level III Commercial/Industrial Loads  
Level IV Non-Essential Loads  
Level V Interruptable Loads  
Level VI Direct Load Control

PUBLIC SERVICE COMMISSION  
OF KENTUCKY  
EFFECTIVE

AUG 15 1997

**PROCEDURE:** The Emergency Energy Curtailment Program is divided into two categories:

BY: Jordan C. Neal  
FOR THE PUBLIC SERVICE COMMISSION

- (1) Anticipated and,
- (2) Sudden/Unanticipated
  - A coal shortage at EKP's generation facilities is an example of an anticipated shortage.
  - Sudden loss of EKP's generation or transmission facilities or extreme weather conditions are examples of unanticipated shortages.

OEC will utilize passive and active controls for the Emergency Energy Curtailment Program. OEC's System Control and Data Acquisition System (SCADA) can initiate voltage reduction and load control programs from the system operation center. The OEC mandatory load reduction plan will be initiated upon notification from EKP as the situation warrants. The reduction plan identifies substation and circuit load blocks which will meet the twenty percent load reduction goal in five percent increments. This plan is reviewed annually and is on file in the OEC system operations center.

### Procedures (Continued)

Owen Electric Cooperative, Inc. has identified essential health and service loads and these load are given special consideration in these procedures, insofar as the situation permits. A listing of these loads is reviewed periodically and is kept on file in the system operations center.

### Anticipated Emergency Energy Shortages

Coal shortage procedures are specifically addressed by EKP in PSC Administrative Case No. 231. OEC has specific responsibilities outlined in the EKP tariff for the three levels of coal shortages.

Level 1 No OEC responsibilities

Level 2 OEC notifies its interruptable loads of the situation and its intent to interrupt these loads.

PUBLIC SERVICE COMMISSION  
OF KENTUCKY  
EFFECTIVE - OEC initiates voltage reduction  
- OEC identifies voluntary load reduction and works with those loads to assist with the situation

AUG 15 1997 Level 3 OEC continues load reduction efforts initiated in Level 2.

PURSUANT TO 807 KAR 5011, - OEC, upon notification from EKP, initiates its  
SECTION 9(1) mandatory load reduction plan, as needed.

BY: Jordan C. Neel  
FOR THE PUBLIC SERVICE COMMISSION Sudden/Anticipated Energy Shortages

East Kentucky Power will notify Owen Electric Cooperative, Inc. in the event of a sudden, severe electric energy shortage. Owen Electric Cooperative, Inc. will then implement procedures to assist East Kentucky Power in meeting the emergency energy shortage. These procedures will be carried out to the extent not prohibited by contractual commitments or by order of the regulatory authorities having jurisdiction.
